

B-538490 BENCH DOCKING STATION

DOCKING STATION – FEATURES & SPECIFICATIONS:

EXCLUSIVE FLIP-AWAY DESIGN – Innovative design allows the docking station to be flipped up and locked out of the way, leaving a completely open rack for unrestricted use.

SECURE BENCH LOCKING SYSTEM – When lowered, the docking station enables the UCS® Multi-Function Bench to roll into place and lock securely. Three locking positions align with the bench pegs, ensuring proper alignment and centering within the rack.

DURABLE CONSTRUCTION

FRAME is powder coated in wrinkle black for a sleek, durable finish.

SLOT PLATE is nickel-plated for added strength and longevity.

RUBBER "SHOE" prevents floor damage during repeated use and movement.

CONVENIENT INSTALLATION – Docking station arrives fully assembled for quick setup.

UNIVERSAL COMPATIBILITY – Designed to be compatible with all UCS® Strength and Speed Racks.
